Water Damage Repair

In the heart of historic Charlestown, MA this beautiful Assisted Living community is conveniently close to downtown Boston.

This complex sustained water damage and it was critical that the repairs were done with the least amount of impact for the residents. We spaced our repairs over a longer period of time to reduce our footprint and make the project go smoother.

Building a Block Wall

One of our clients needed us to repair a damaged block wall at one of their facilities.

It was important that we mobilize right away and get the job done.
